

### **Using technology to promote learning**

This year our teachers are using Apple iPads as another tool in classrooms to assist and promote learning in some areas of the curriculum.

We are finding that the iPad applications that are particularly useful in Literacy and Numeracy in the junior classes are also of interest to parents. Many parents, with their own iPads, have asked us which applications we use so that they can also work on these with their children at home.

Here is a list of some 'apps' we find useful so far and that we think may be beneficial for the Prep children at Glendal to use at home if they have access to an iPad.

#### LITERACY APPS :

LetterSchool	rED Writing
abc Pocket Phonics	Word Magic
Eggy 100	Eggy 250S
SpellingMagic 3 letter words	Ministry of Letters
Singing Alphabet	Starfall ABC"S
Love to Read	Kindersmarts
Phonics Awareness	

#### NUMERACY APPS :

Teaching Number Lines  
Love to Count  
Friends of 10
