

Word Lists

As part of our reading program the students will be given word lists to assist them in building their sight vocabulary. The wordlists will be pasted in an exercise book that is sent home with their 'take home' books.

Fun ways to help your child to remember these words include;-

- *Make them with magnetic letters*
- *Print the words on different surfaces with different writing implements (eg. Chalk on the pavement, textas, crayons on paper).*
- *Put the words on cards and play games such as Tic, tac toe and memory.*
- *Put the words around the house and touch and say the words when you walk past them.*
- *Make a word puzzle.*
- *Make the word with playdough*
- *Write the word in sand.*
- *Draw around the shape of the word.*
- *Put the words in sentences.*
- *Paste confetti, noodles, etc around the word.*
- *Find the words in their 'take home' books*

Please revise words from previous weeks as well as learning the new words.

If your child is already able to read the words, then you may help them to learn to spell the words.

We will also be doing activities to help learn the words at school.

Thankyou

Glendal Prep Team
